| Basic Information 基本情報

Name	Swapnil Saha Shawon
Birth date	July 15th, 1999
Current Address	55/6 S. M. Maleh Road, Narayanganj Sadar
Contact Number	+8801926169686
E-mail	Shawonsaha157@gmail.com
Portfolio link	Original portfolio: GitHub: https://github.com/shawonsaha15/

| Academic Background 学歴

Degree	BSc. in Computer Science and Engineering (CSE)		
University Name	North South University		
Duration	2020.6-2024.6	**CGPA**	
Passing Date	23rd June, 2024 (Tentative)		

| Professional Working Experience 職歴 *Employment, Establish own company, Internship

Company Name	North South University
Job Title	Under-Graduate Assistant (UGA)
Job Responsibilities	1. Employ four (04) hours per section per week of which dedicated two (02) hours for consultation service to the students and two (2) hours for official work with faculty members. 2. Post office hours for student consultation in front of your office room and office rooms of faculty members. Post the office hours in the CANVAS portal, too. 3. Grade home-works and assignments for each section. 4. Remain informed about dates of tests, quizzes, midterms, final exam and assignments. 5. Assist faculty members by proctoring during exams. 6. Assist faculty members in any other course related work.
Technology / Language Used	MS Word, MS Excel, Google Sheets, CANVAS
Duration	2023.7 – 2023.11

| Academic or Personal Project Experience 学習のための経験

Duration	Project Details	Technology Used	Your Role
2023.7 - Present	Project Title : Cross-cultural Effects of Human Resource Management Practices on Firm Performance Project Overview : Used different machine learning models to find the most suitable model and used ensemble learning methods to fine-tune the models. Project Link : Total Number of Members : 2	Google Colaboratory, Python, Numpy, Pandas, Matplotlib, Scikit-learn, Machine Learning Algorithms, Ensemble Learning	Your Role : Lead project, collect dataset, pre-process dataset, designing solution and writing report. Name of Part : Extracting main features and target variable from dataset, build machine learning models.
2024.1 - Present	Project Title : Image Classification and Analysis of Arsenicosis affected Skin of Bangladeshi People Using Deep Learning Project Overview : The research project aims to develop an advanced deep learning-based image classification system for analyzing arsenicosis-affected skin conditions in Bangladeshi individuals. The qualitative outcome will provide valuable insights into the manifestation and progression of arsenicosis-related lesions, facilitating early detection and intervention. Quantitatively, the model targets achieving higher accuracy in classifying various stages and types of arsenicosis-related skin conditions, emphasizing processing efficiency, aiming for under minimum seconds per image. The dataset utilized for training and testing will encompass a diverse range of images sourced from Bangladeshi populations, ensuring the model's consistency and generalizability. Project Link : Total Number of Members : 3	Google Colaboratory, Python, Deep Learning Algorithms	Your Role : Lead project, pre-process dataset, designing solution and writing report. Name of Part : Extracting main features and target variable from dataset, build deep learning models.
2023.1 –	Project Title : Routing For You Project Overview : Routing For You would help	PHP, CSS,	Your Role : Lead project, project planning, frontend

2023.6	the users as an aide to ease their daily commute using public transportation. Project Link : https://github.com/shawonsaha15/RoutingForYou Total Number of Members : 2	JavaScript, Bootstrap, SQL, Google Maps API, Hack	designing, backend connection, resource collection and writing report. Name of Part : Website design, data preparation, SQL and PHP backend connection.
2023.1 – 2023.1	Project Title : Jewelry Ecommerce Site Project Overview : It is a digital jewelry storefront that facilitates the transaction between a buyer and seller from a range of showcased products. Project Link : https://github.com/shawonsaha15/JewelryEcommerceSite Total Number of Members : 1	PHP, CSS, HTML, SQL	Your Role : Lead the project and develop the website. Name of Part : Full project.
2022.8 – 2022.9	Project Title : Home Automation using Arduino Project Overview : An Arduino system that can wirelessly control home appliances using Bluetooth. Project Link : https://github.com/shawonsaha15/HomeAutomation Total Number of Members : 1	C++, Arduino	Your Role : Lead the project and build the system using Arduino and other devices. Name of Part : Full project.
2022.1 – 2022.5	Project Title : IC-Template Project Overview : Contains the template designs for ICs in their real forms. Project Link : https://github.com/shawonsaha15/IC-Template Total Number of Members : 1	Logisim	Your Role : Lead the project and design the ICs. Name of Part : Full project.
2022.1 – 2022.1	Project Title : Digital Clock Project Overview : It simulates a digital clock built with logic gates, mux, counters, etc. Project Link : https://github.com/shawonsaha15/DigitalClock Total Number of Members : 1	Logisim	Your Role : Lead the project and design the system. Name of Part : Full project.
2022.1 – 2022.1	Project Title : ID-Display Project Overview : It displays my NSU student ID built using logic gates, mux, counters, etc. Project Link : https://github.com/shawonsaha15/DigitalClock Total Number of Members : 1	Logisim	Your Role : Lead the project and design the system. Name of Part : Full project.
2022.1 – 2022.1	Project Title : Basic Snake Game Project Overview : Simple snake game where the user controls the snake and eats the food to score. Project Link : https://github.com/shawonsaha15/BasicSnakeGa	Java	Your Role : Lead the project and develop the game. Name of Part : Full project.

	me Total Number of Members : 1		
2021.6 – 2021.6	Project Title : Inventory Management System Project Overview : It is an inventory management system that can be used to keep track of products/items as well as the employees in a company. Project Link : https://github.com/shawonsaha15/InventoryManagementSystem Total Number of Members : 1	Java	Your Role : Lead the project and develop the project. Name of Part : Full project.
2021.4 – 2021.5	Project Title : Basic Case Management System Project Overview : It is a management system that keeps track of cases such as police cases, etc. Project Link : https://github.com/shawonsaha15/BasicCaseManagementSystem Total Number of Members : 1	Java	Your Role : Lead the project and develop the project. Name of Part : Full project.
2020.4 – 2020.5	Project Title : The Riddler's Puzzle Project Overview : It is a basic riddle-based puzzle game. Project Link : https://github.com/shawonsaha15/TheRiddlersPuzzle Total Number of Members : 1	C	Your Role : Lead the project and develop the project. Name of Part : Full project.
